Laravel Activity # 3

Web.php

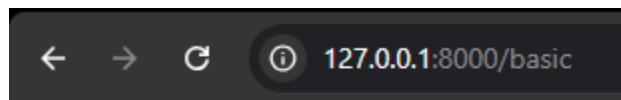

```
1  <?php
2
3  use App\Http\Controllers\TestController;
4  use App\Http\Controllers\ProductController;
5  use App\Http\Controllers>WelcomeController;
6  use Illuminate\Support\Facades\Route;
7
8  Route::get('/', function () {
9      return view('welcome');
10 });
11
12 Route::get('/basic', [TestController::class, 'showMessage']);
13
14 Route::get('/basic/{name}', [TestController::class, 'showName']);
15
16 Route::resource('products', ProductController::class);
17
18 Route::get('/welcome', WelcomeController::class);
19 |
```

Exercise 1

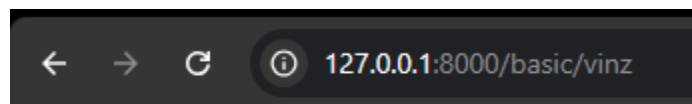

SOURCE CODE

```
1  <?php
2
3  namespace App\Http\Controllers;
4
5  use Illuminate\Http\Request;
6
7  3 references | 0 implementations
8  class TestController extends Controller
9  {
10     1 reference | 0 overrides
11     public function showMessage() {
12         return "Hello, this is a basic controller!";
13     }
14
15     1 reference | 0 overrides
16     public function showName($name) {
17         return "Hello, " . $name . ", this is a basic controller!";
18     }
19 }
```

OUTPUT

Hello, this is a basic controller!

Hello, vinz, this is a basic controller!

Exercise 2

SOURCE CODE

```
1  <?php
2
3  namespace App\Http\Controllers;
4
5  use Illuminate\Http\Request;
6
7  2 references | 0 implementations
8  class ProductController extends Controller
9  {
10     /**
11      * Display a listing of the resource.
12      */
13     0 references | 0 overrides
14     public function index()
15     {
16         return "Displaying all products";
17     }
18
19     /**
20      * Show the form for creating a new resource.
21      */
22     0 references | 0 overrides
23     public function create()
24     {
25         return "Form to create a product";
26     }
27
28     /**
29      * Store a newly created resource in storage.
30      */
31     public function store(Request $request)
32     {
33         return "Storing new product";
34     }
35
36     /**
37      * Display the specified resource.
38      */
39     0 references | 0 overrides
40     public function show(string $id)
41     {
42         return "Showing product with ID: $id";
43     }
44
45     /**
46      * Show the form for editing the specified resource.
47      */
48     0 references | 0 overrides
49     public function edit(string $id)
50     {
51         return "Editing product with ID: $id";
52     }
53 }
```

```
0 references | 0 overrides
public function destroy(string $id)
{
    return "Deleting product with ID: $id";
}
```

OUTPUT

← → ↻ ⓘ 127.0.0.1:8000/products

Displaying all products

← → ↻ ⓘ 127.0.0.1:8000/products/create

Form to create a product

← → ↻ ⓘ 127.0.0.1:8000/products/111

Showing product with ID: 111

← → ↻ ⓘ 127.0.0.1:8000/products/111/edit

Editing product with ID: 111

Exercise 3

SOURCE CODE

```
1  <?php
2
3  namespace App\Http\Controllers;
4
5  use Illuminate\Http\Request;
6
7  class WelcomeController extends Controller
8  {
9      /**
10       * Handle the incoming request.
11       */
12     public function __invoke(Request $request)
13     {
14         return "Welcome to the single action controller!";
15     }
16 }
17
```

OUTPUT

← → ↻ ⓘ 127.0.0.1:8000/welcome

Welcome to the single action controller!
